DETAILED ACTION

Election/Restriction

1. Applicant's election of Group I (claims 1-7, 10-19) on 3/28/2007 without traverse is acknowledged. Election requirement is made FINAL.

Claim Rejections - 35 USC § 101

- 2. 35 U.S.C. 101 reads as follows:
 - Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.
- 3. Claim 19 is rejected under 35 USC 101 because claim recites bitstream data structure and it is non-functional and limitations imparting any functionality. Further claim 19 is non-statutory because it recites the mathematical steps and does any output and real word application.

Double Patenting

4. The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. A nonstatutory obviousness-type double patenting rejection is appropriate where the conflicting claims are not identical, but at least one examined application claim is not patentably distinct from the reference claim(s) because the examined application claim is either anticipated by, or would have been obvious over, the reference claim(s). See, e.g., *In re Berg*, 140

Application/Control Number: 10/625,364

Art Unit: 2624

F.3d 1428, 46 USPQ2d 1226 (Fed. Cir. 1998); *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) or 1.321(d) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent either is shown to be commonly owned with this application, or claims an invention made as a result of activities undertaken within the scope of a joint research agreement.

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

5. Claims 1, 3, 7, 10, 11, 14, and 15-18 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1, 2, 3, 26, 32, 34, 37, 39 of the U.S. Patent No. 6621,935. Although the conflicting claims are not identical, they are not patentably distinct from each other because they recite similar limitations.

Regarding claim 1, claims 1 and 2 of the U.S No. 6621,935 recites similar limitations as claim 1.

Regarding claim 3, claim 3 of the U.S No. 6621,935 recites similar limitations as claim 3.

Regarding claims 7 and 15, claim 39 of the U.S Patent No. 6621,935 recites similar limitations as claims 7 and 15.

Regarding claims 10-11 and 14, claim 32-33 and 37 of the U.S Patent No. 6621,935 recites similar limitations as claims 10-11 and 14.

Regarding claims 16-18, claim 26 of the U.S Patent No. 6621,935 recites similar limitations as claims 16-18.

Art Unit: 2624

Allowable Subject Matter

6. Claims 2, 4-6, and 12-13 are objected as being dependent on rejected claim but would be allowable rewritten in independent form including limitations of the base claim and intervening claims.

Communication

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Sherali Ishrat whose telephone number is 571-272-7398. The examiner can normally be reached on 8:00 AM - 4:30PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Matthew Bella can be reached on 571-272-7778. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
